- **Programming Languages:** Java, Scala, Javascript, C#, PHP, ASP.NET using Razor, Visual Studio.NET, VB
- **Markup and Data Languages:** HTML, CSS, XML, JSON
- **Frameworks:** SOAP and RESTful APIs, PHP Microservices, Scala-Play
- **Database:** Oracle PL/SQL Database, MS SQL Server, MySQL
- **CRMs:** SalesForce, MS ActiveDirectory Admin, Zoho Apps/CRM, Hubspot, Copper, Drift, Reply.io
- **Tools:** Wordpress, AWS S3, Boomerang SOAP UI, PhpStorm IDE, UML Diagrams, GitHub, SVN, intermediate CMD/UNIX commands, scripting, MS Office, OpenOffice, MeisterTask, Self-test Scripts and Assertions
- **Operating Systems:** Power User in all 3 OS types: Windows 10, Linux, Mac OS X
- **Languages:** moderate in Spanish (written), moderate in Arabic (spoken)

EXPERIENCE

CreativApp, LLC (dba TitleCapture) – South Miami, FL

Web Developer and Data Migration

January 2016 – March 2019

- Single-handedly developed in **PHP** and **MySQL** the architecture and implementation of **RESTful / SOAP** APIs interfacing with two real estate title underwriter companies (FirstAm and ORT), complete with self-test scripts and a thorough 70+ pages PDF Developers Documentation with **UML Sequence Diagrams**
- Programmed in **PHP** and **MySQL** a fully functional 4-endpoint Analytics API for our clients to see their ROI
- Written an **Amazon S3** file uploader and encryption library for our developers to use for file security
- Completed up to 4 full CRM database migrations, ranging from **Zoho CRM, Hubspot, SalesForce, and Drift**
- Performed more than 75 App widget install sessions and wrote 7+ documentation tutorials for clients
- Handled over 200 customer Dev tickets to customer satisfaction and perfection

Radeus Tech, LLC – Miami, FL

Web and Software Developer

June 2013 – Dec 2015

- Created from scratch a contact management system using **C#** and **MS Access** datafiles to track clients and their health records, with row locking and thorough testing
- Built an **ASP.NET Razor / SQL Server** web app, so that their clients can do data entry and track all the data
- Composed a **C#** application for a finance company to save time and manual work which combined two CSV sheets into one format

Trax USA Corp – Coconut Grove, FL

June 2012 – June 2013

Data Migration Programmer / Interface Developer

- Performed **PL/SQL Oracle Database** data migrations using stored procedures and scripts
- Fixed database data integrity issues in **PL/SQL** for a world known airline company

Tradewire Securities, LLC – Brickell, FL

Nov 2010 – May 2012

Programmer Analyst

- Programmed many programs in **VB, Java, and C#** for the Compliance Department and for the Trading Department, maintained them, documented them, and provided support services for them.

EDUCATION

University of Miami

Bachelor of Science in Computer Science, May 2010
